#### **1. Short Title**

This Directive may be cited as “Asset Classification and Provisioning (5<sup>th</sup> Replacement) Directive No.SBB/69/2018”.

#### **2. Definitions**

For the purpose of this Directive, unless the context provides otherwise:

- 2.1 **“Capitalized interest”** means any accrued and uncollected interest that has been added to the principal amount of loans or advances at a payment date or maturity; it also includes uncollected interest that is rolled-over into new loans or advances.
- 2.2 **“Cash collateral”** means credit balances on accounts in the books of the lending bank over which customers have given the lending bank a formal letter of cession and which the bank at its discretion has transferred from the customer’s account(s) to a specific or general cash collateral account(s) or blocked.

- 2.3.1 a security issued by the Federal Government of Ethiopia;
  - 2.3.2 an unconditional obligation or guaranty issued in writing by the Federal Government of Ethiopia;
  - 2.3.3 an unconditional obligation or guaranty issued in writing by a foreign bank with an **A** or above rating by Standard and Poor’s Corporation and/or by Moody’s Investor Services in their latest ratings;
  - 2.3.4 export credit guarantee issued in writing by an institution or agency authorized by the Federal Government of Ethiopia; and
  - 2.3.5 other liquid and readily marketable securities approved in writing by the National Bank and which are held in the vault of the lending bank.

- 2.7 **“Loan workout”** means a process of renegotiation between the bank and a borrower to normalize repayment of problem loans and advances.
- 2.8 **“Loans” or “Advances”** means any financial assets of a bank arising from a direct or indirect advance (i.e. unplanned overdraft, participation in loan syndication, the purchase of loans from another lender, etc.) or commitment to advance funds by a bank to a person that are conditioned on the obligation of the person to repay the funds, either on a specified date or dates or on demand, usually with interest. The term includes a contractual obligation of a bank to advance funds to or on behalf of a person, claim evidenced by lease financing transaction in which the bank is the lessor, and an overdraft facility to be funded by the bank on behalf of a person. The term does not include accrued but uncollected interest or discounted interest.
- 2.9 **“Long term loans”** mean loans or advances with repayment or maturity period of more than 5 (five) years.

For purposes of this Directive the most probable value of a loan or an advance recoverable from the sale of collaterals securing the loan or advance shall be the outstanding principal balance of the loan or advance multiplied by the “average recovery rate” of a bank for loans or advances secured by collateral, provided that such average recovery rate shall not be 15 (fifteen) percentage points greater than “industry average recovery rate”. If a bank has no information aggregate net cash receipts or total net market value of acquired properties to compute its own average recovery rate, it shall use industry average recovery rate to determine the most probable value of a loan or an advance.

2.12.1 The term “**average recovery rate**” means aggregate net cash receipts from sale of collateral plus total net market value of acquired properties, divided by the aggregate outstanding principal balance of the loans or advances backed by the collateral sold or otherwise acquired by a bank calculated over the period of 18 consecutive months preceding the date of computing minimum provision requirement as laid down in this Directive. In case a loan or an advance is secured by more than one collateral, such loan or advance and the collateral securing it shall be excluded from computation of average recovery rate unless all properties backing the loan or advance are sold or otherwise acquired by the bank.

2.12.2 “**Aggregate net cash receipts**” means net cash collection (after deduction of any expenses associated with the sale of the collateral which may have been necessary to place the collateral in a saleable condition), over 18 consecutive months preceding the date of calculating minimum provision requirement, of a bank from the sale of collateral which have been seized or foreclosed by the bank in satisfaction of loans or advances previously granted.

In case a loan or an advance is secured by more than one collateral, such loan or advance and collateral backing it shall be excluded from computation of industry average recovery rate unless all properties held as collateral against the loan or advance are sold or otherwise acquired by banks. The National Bank shall compute such industry average recovery rate every calendar quarter and distribute to all banks operating in Ethiopia.
- 2.12.6 In determining the average recovery rate as set out under 2.12.1 herein above, the net market value of acquired property and/or the net cash receipt from the sale of collateral shall not exceed 100% of each outstanding non-performing loan backed by the collateral and used in the calculation of the average recovery rate.

- 2.13 **“Non-accrual status”** means that a loan or advance has been placed on a cash basis for financial reporting purposed. Interest on such loans or advances accrued on the books of the bank, or for which a specific reserve (such as a suspended interest account) has been established by the bank to offset the full amount of interest being accrued, shall not be taken into income unless and otherwise provided in this Directive.

- 2.14.2 For purposes of this Directive, overdrafts and loans or advances that do not have a pre-established repayment program shall be non-performing when:

(ninety) consecutive days or (iii) the account fails to show 5% or less debit balance at least once over 360 days preceding the date of loan review.

- 2.14.3 For purposes of this Directive, the entire principal balance of loans or advances outstanding exhibiting the characteristics described under 2.14.1 and 2.14.2 shall be considered as non-performing.

that losses are likely to be more than the above minimum provision percentages, banks may be required to maintain larger provisions.

- 7.5 The minimum provision requirements for each classification category here in above shall be applied against the total outstanding principal balance, not against the amount of past due payments, for each loan or advance, or portion thereof, classified regardless of whether the loan or advance is analyzed and provided for individually or as part of a group.
- 7.6 Before applying the minimum provision percentages laid out under 7.3.3, 7.3.4 and 7.3.5 herein above, banks may deduct from the outstanding non-performing loans or advances:

- 9.2 Should examining personnel in applying the requirements of this Directive and after discussions with the executive officer(s) of the bank find the Provisions for Loan Losses Account to be inadequate by more than 10% (ten percent) when compared to the findings of an on-site examination, the board of directors shall within 30 (thirty) days of such notice by the National Bank of any deficiency in the Provisions for Loan Losses Account require the executive officer(s) to record the appropriate entries to increase the balance of the Provisions for Loan Losses Account to a level which is within 10% (ten percent) of the estimated amount of the Provisions for Loan Losses Account determined by examining personnel of the National Bank.
